Gain Health by Losing Weight

A Holistic Approach to Weight Loss

It is no secret that America has problem with obesity. We are one of the most overfed, but undernourished countries on the planet and our waist-lines show it! Every where you turn you see programs advertising programs to get you to lose weight quickly. However, statistics show that most people, who go on drastic diets to lose weight, wind up gaining it back again. The fact is that permanent weight loss requires lifestyle changes. WE do not need to diet, we need to change our diet, because it is not just how much we are eating that counts, it is also what we are eating that counts.

Nutritionally, the biggest factor in America's weight problem is that excess of refined carbohydrates in our diets. The high-carbohydrate diet of most American triggers excessive insulin production, which cause the body to store fat and crave more sugar and starches. If we alter our diet and chose the right supplements, we can reset our metabolism to state burning fat, instead of storing it. However, there is more to it than that, Stress, low thyroid, chronic inflammation, emotional wounds and other factors also play a role in our weight problems. If we do not address these underlying issues, we won't be able to sustain permanent weight loss.

Discover how to gain by losing weight by attending this month's LIVE Healthy Habits class on **Saturday, December 11th at 9:00 a.m.** Cost: **Special \$10/person.** Bring a friend – Receive a FREE gift. Class includes: one-hour class with handouts. To register call (575) 745-1673 or email enchantedherbpantry@yahoo.com, seating is limited.
