Do You Feel Tired or Depressed? Is Your Libido Low? Does Your Hair Fall Out Easily? Is Your Skin Dry? Do You Have Trouble Losing Weight? Do You Frequently Feel Cold?

Your Thyroid May Be the Source of Your Problems

Thyroid disorders are very common in this country, but they are ten times more common in women than they are in men. About 2% all women suffer from diagnosable hypothyroid (low thyroid) and about 0.2% of men. Some researchers believe that this disorder is often misdiagnosed and that the actual incidence of thyroid problems is much higher. When your thyroid is low, you may feel like your "get up and go" got up and left. Your energy and mood will be lower, you will feel colder and have a lower sex drive and your hair and skin will suffer. Since the thyroid regulates fat metabolism, it may also be difficult to maintain our ideal weight.

Hypothyroid isn't the only thyroid problem we face, either. Hashimoto's Thyroiditis, an autoimmune disease of the thyroid, and Grave's Disease, a hyperactive (or overactive) condition of the thyroid, are also increasingly common. In fact, about 80% of cases of thyroid disorder involve a hypoactive thyroid and the other 20% an overactive thyroid (as in Grave's disease).

Discover natural solutions to common thyroid problems at this month's LIVE Healthy Habits class on **Saturday, April 10th at 9:00 a.m.** Cost: \$15/person. Bring a friend – Save \$10 (2/\$20). Class includes: one-hour class with handouts. To register call (575) 745-1673 or email enchantedherbpantry@yahoo.com, seating is limited.
